PROFESSIONAL SUMMARY

Motivated BCA student with a strong foundation in Python, web development, and machine learning, with hands-on experience developing AI, e-commerce, and Flutter-based projects. Skilled in applying programming and problem-solving concepts to build practical applications, with a strong interest in learning new technologies and developing a career in the IT industry..

TECHNICAL SKILLS

Programming: Python, Java, JavaScript

Web Development: HTML, CSS

Machine Learning: Scikit-learn, Random Forest, Data Preprocessing

Data Analysis: Pandas

App Development: Flutter, Dart

Development Tools: Git, GitHub

UI/UX: UI Design, Responsive Design

PROJECTS

AI Interview Copilot - Interview Preparation Platform |

JavaScript, Python, Html, Css, MySQL, Express.js, Node.js

AI Interview Copilot works by analyzing a user's resume and interview requirements to provide personalized interview questions, preparation guidance, and feedback to help improve interview performance.

- Developed an AI-powered interview preparation platform designed to help users improve their interview readiness.
- Implemented features for interview preparation, resume analysis, and personalized feedback.
- Created an interactive platform that provides users with a structured approach to preparing for interviews.
- Applied JavaScript development concepts to build the application's functionality and user interaction.

Sonic Sorter Music - Music genre Classification application

Python, Pandas, Scikit-Learn, Machine-Learning, Random Forest, Data Preprocessing, Label Encoding

Sonic Sorter Music works by analyzing music features and using a trained Random Forest machine-learning model to predict the song's genre.

- Developed a machine-learning-based music genre classification system using Python.
- Used Pandas and Scikit-learn with a Random Forest Classifier to train the model.
- Analyzes music features and predicts the genre of a song based on the input.

Flutter Restaurant App

Flutter, Dart, UI/UX Design, Responsive Design, Cross-Platform Development

Flutter Restaurant App: Developed a cross-platform restaurant application using Flutter and Dart with a responsive interface for browsing food items and exploring the menu.

- Developed a restaurant application using Flutter and Dart for browsing food items and exploring the menu.
- Designed a clean and responsive user interface to provide a smooth browsing experience.
- Applied Flutter widgets and cross-platform development concepts to build the application.

CERTIFICATIONS & ACHIEVEMENTS

- Cybersecurity Analyst Job Simulation – Tata | Forage — Completed practical tasks related to Identity and Access Management (IAM).
- UI/UX + HTML Workshop — Completed a 48-hour certificate and workshop.
- Full Stack Java Development Workshop — Completed a 54-hour certificate and workshop.

EDUCATION

Bachelor of Computer Application(BCA)

KLE GH BCA College, Haveri| CGPA: 7.7/10.0
